Not only from my knowledge of Mr. Strode's high reputation, but also from personal acquaintance with him, and, above all, from intercourse in my own class-room with young men taught by him. I feel certain that the course of teaching at Kenmore is unusually solid and effective.

THOMAS R. PRICE, Professor of Greek.

University of Virginia, May 27, 1878.

The Kenmore High School has been in operation for several years. During this time a number of young men trained there have entered the University of Virginia. Many of the e have sustained themselves web in the School of Latin of the University, and given evidence of fadthful and thorough instruction. I do not hesitate to recommend the Kenmore High School as, in every respect, deserving the confidence and patronage of the public.

The record made at the University by several students educated at Kenmore Academy reflects much credit on the conduct and instruction of that institution, which is regarded as amongst the best of the Virginia schools of high grade.

I have been well abquainted with the management discipline, and literary advantages of "Kenmore University High School" ever since its establishment. I am also personally well nequalisted with Professor Strode, principal, and Professor Brock, assistant, and it gives me great pleasure to bear testimony to the high merits of that institution. In my opinion it has no superior in moral gentlemanty, and literary advantages and training. I command it with undoubting confidence to the patronage of parents and guardians. I may add that I have been a patron of the school for six years and expect to be a vertex for many years more. and expect to be a patron for many years more. SAMUEL H. HENRY, Judge Amberst county.
